Consultant Profile

General Data

Name: Helmut Tammen

Year of birth: 1964-04-21

Graduation: Graduate Mechanical Engineer

Bremer Ingenieurpreis for the Diploma Thesis. It was chosen out of five universities / colleges and serveral faculties within these institutes

SAP Community: Member of the month December 2016

IT Experience: IT experience on the job since 1990

Nationality: german

Languages: german, english

Main Focuses: SAPUI5 / OpenUI5, SAP Cloud Consulting (BTP), SAP Cloud Application

Programming Model (CAP), SAP HANA Consulting and Development, SAP Enterprise Portal Consulting and Development, SAP NWDI / CTS+, SAP Web Dynpro Java Development, SAP Security Consulting, SAP ABAP Development, OO Development and Consulting, JEE Development, Web Development, Web Architecture Consulting, Node.is Development, Groovy / Grails Development

Branches: Services, Utilities, Logistics, Finance, Automotive, Construction industry

Availability: 12/2023

Prefered Regions: currently only North Germany (Braunschweig, Hannover, Bremen, Hamburg,

Berlin, Kassel)

Certificates: 2016-10-04, Big Data with SAP HANA Vora, 98%

2016-04-08, Software Development on SAP HANA (Delta SPS 11), 100%

2015-07-01, Creating Business Value with User Experience, 100% 2015-05-01, Build Your Own SAP Fiori App in the Cloud, 100% 2015-05-01, SAP Business Suite 4 SAP HANA in a Nutshell, 50%

2014-12-17, Sicherheit im Internet, 83%

2014-11-01, Next Steps in Software Development on SAP HANA, 98%

2014-10-01, Introduction to SAP Fiori UX, 96%

2014-10-01, SAP's UX Strategy in a Nutshell by SamYen, 100% 2014-08-01, An Introduction to SAP HANA by Dr. Vishal Sikka, 87%

2014-08-01, Next Steps in SAP HANA Cloud Platform, 98% 2014-06-01, Sustainability and Business Innovation, 94%

2013-12-01, Introduction to Software Development on SAP HANA, 93%

Trainings: 2020-02-14, UI5Con in Brussels / Belgium, SAP

2019-10-08, SAP TechEd Barcelona, Barcelona, Spain 2019-06-28, UI5Con in St. Leon-Rot / Germany, SAP 2018-10-23, SAP TechEd Barcelona, Barcelona, Spain 2018-06-22, UI5Con in St. Leon-Rot / Germany, SAP 2017-06-30, UI5Con in St. Leon-Rot / Germany, SAP 2016-04-19, SAP CodeJam: SAP HANA XSA, Hannover

2016-03-12, Attendee at sitFRA in Frankfurt / Germany, AOK Systems

2016-03-11, UI5Con in Frankfurt / Germany, AOK Systems

Email: h.tammen@tammen-it-solutions.de Tel: +49 170 88 22 491

Consultant Profile

2016-02-17, SAP CodeJam: IoT on HCP, Hannover

2015-05-21, SAP CodeJam: SAP Gateway and SAPUI5, Hannover 2015-05-08, SAP CodeJam: SAP Gateway and SAPUI5, Bielefeld

2014-06-20, SAP CodeJam: SAPUI5, Bielefeld

2013-11-01, SAP TechEd Amsterdam, Amsterdam, Netherlands

2013-01-11, SAP CodeJam: SAP Mobile platform, Bielefeld, Germany

2006-11-01, SAP TechEd Amsterdam, Amsterdam, Netherlands

2005-11-01, SAP TechEd Vienna, Vienna, Austria

Presentations:

03 / 2016, 1st Ulcon ever, Building a Custom Graphic Control using SVG & Usage

of node.js OData Server, Frankfurt (AOK Systems)

06 / 2017, 1st UI5con at SAP, Virtual Tour around a company site with UI5, St.

Leon-Rot (SAP)

06 / 2018, UI5con at SAP, UI5 goes PWA, St. Leon-Rot (SAP) 02 / 2020, UI5con Belgium, UI5 with Typescript, [object Object]

Email: h.tammen@tammen-it-solutions.de Tel: +49 170 88 22 491

Consultant Profile

IT Skills

OS: Windows, Mac OS X, Linux

Programming: Java, JavaScript, Node.js, TypeScript, Groovy / Grails, ABAP / 4, ABAP Objects,

Pascal / Delphi, C / C++

Databases: SAP HANA (In-Memory), PostgreSQL, MySQL, MaxDB, Oracle, POET (00-

Database), IBM Cloudant (No-SQL)

DBAbstraction: OData, REST, JDBC, Hibernate (Java), Loopback (Javascript), SQL

SAP: SAPUI5 / Fiori, SAP BTP, SAP CAP, SAP HANA, Web Dynpro Java, SAP NW 6.40 -

7.52, NWDI (DevInf), CTS+, NW Portal 5.0 - 7.50, Adobe Document Services (ADS), Security (SAML, OAuth, SSO), R/3, Sales and Distribution (SD), Materials

Management (MM), Plant Maintenance (PM), SAP for Utilities (IS-U)

SCM-Tools: Git, Subversion, SAP NWDI

Methods: UML, Design Pattern, Scrum, Design Thinking, ERM

Consultant Profile

Projects

	(only projects of last ~6 years are displayed)		
09/22 - today 14 months (part-time)	Insurance Creation of an internet portal for insured members Creation of an internet portal for insured members of a retirement fund. Members of the insurance organization can complete many processes online via self services, which were handled till now via asynchronous communication. Realization in an on-premise SAP System (SAP NW 7.52). Tasks: technical project management, development of OData services in SAP NW ABAP, development of Fiori/SAPUI5 frontend applications, configuration of the system and the apps. A challenge was to fulfill the security requirements required by the customer in respect to onboarding, login and of course regular operation of the portal. SAPUI5, Fiori, Fiori Elements, SAP NW ABAP, OData, eID/eIDAS		
01/14 - today long term	Several Development of several SAP HANA / HANA Cloud Platform / Fiori prototypes Develop some internal prototypes to learn / deepen the use / deployment of SAP HANA / SAP HANA Cloud Platform / Fiori. SAPUI5, Fiori, Fiori Elements, SAP HANA XS, SAP HANA Cloud Platform, SAP HANA Web Tools, SAP Web IDE, SAP Cloud Application Programming model (CAP)		
10/14 - today temporary	Networking Active participation in several communities and work groups Since 10/14 member of SAP internal work groups about UI and cloud. Coworking in several SAP CEIs (Customer Engagement Initiative), e.g. CEI Fiori like Apps on HCP, Annotation Modeler for SAP Web IDE, SAP Fiori Overview Page. Presenter at most of SAP developer conference UI5con in Europe		
09/22 - 11/23 14 months (part-time)	Service Development of a no-code tool for SAP BTP Co-development of a no-code tool for analysing business data in SAP BTP without the need for programming skills. Details: https://help.sap.com/docs/ SAP_PROFITABILITY_PERFORMANCE_MANAGEMENT_CLOUD. The application was developed with SAP CAP (node.js). My main task was to check and implement the technical feasibility of special requirements. SAP CAP, node.js, Fiori, Fiori Elements, OData, SAP BTP		
03/22 - 05/22 3 months	Insurance Creation of a concept for an internet portal Creation of a concept for an internet portal. Members of the insurance organization should be able to complete many processes online via self services, which are currently handled via asynchronous communication. A technical concept for the business processes as well as a technical concept for the operation in the cloud (SAP BTP) was created. Workshops, Prototyping, SAP BTP, Fiori		
01/22 - 02/22 2 months	Public Administration Calculation of costs for Security services		

Helmut Tammen Isoldestrasse 19e 38106 Braunschweig
Email: h.tammen@tammen-it-solutions.de Tel: +49 170 88 22 491

	Creation of a program to calculate the costs of security services. Backend implementation with SAP CAP / Node.js. Frontend implementation with SAP Fiori Elements and SAPUI5 freestyle. SAP CAP, Node.js, Fiori Elements, SAPUI5, SAP BTP	
04/21 - 09/21 6 months	Maintenance SAPUI5 Development SAPUI5 development in an ambitious project. Development of an own extension framework based on SAPUI5, which supports UI extensions at runtime. Development of SAPUI5 dialogues / applications based on this framework. Development of a Google Maps integration into the SAPUI5 applications Fiori, SAPUI5, Leaflet map library	
11/20 3 months	Utilities SAPUI5 and Cloud Consulting Consulting on the porting of an SAP Fiori application from an SAP OnPremise backend to the SAP Cloud Platform. The consulting included infrastructure consulting as well as a review of the Fiori application (technology and design). SAP Cloud, SAP CAP, Fiori, Fiori Elements, SAPUI5	
09/19 - 03/21 6 months	Finance Generator for SAP CAP applications Creation of a sourcecode generator for SAP CAP applications. This generator creates fully functional SAP CAP applications for a data modell that is designed and maintained in SAP PowerDesigner tool. The applications consist of all application layers: data, service, UI. Besides the sourcecode generator a tool has been developed that extracts all PowerDesigner metatdata via an OCX control. node.js, Typescript, SAP CAP, CDS Views, Fiori Elements, SAPUI5, OCX/ActiveX, SAP HANA XSA	
04/18 22 months	Public Administration SAPUI5 applications in SAP Enterprise Portal Creation of serveral SAP / SAPUI5 applications inside the SAP Enterprise Poral. Configuration of FLP (Fiori Launchpad) in portal environment. Implementation of backend services in SAP Netweaver Java Stack. Implementation of SAPUI5 applications in frontend. SAPUI5, Javascript, Typescript, SAPUI5 Tooling, Git, SAP Netweaver Java, SAP Enterprise Portal	
11/17 - 02/18 2 months	Insurance industry SAPUI5 application for investment approval process Creation of a SAP / SAPUI5 application the allows submission and administration of investment requests in a big german company of the insurance sector. Implementation of the OData Service in SAP R/3 backend. Implementation of SAPUI5 application in frontend. Up- and download of documents. Integration of SAP business workflow.
